PEOPLE
recover

**2012
ANNUAL
REPORT**

ADAMHS Vision:

Montgomery County residents have access to a timely and accessible system that is coordinated, progressive, financially stable and effective and assists all to live with dignity, understanding, acceptance, support and integration within the community.

Message from the Executive Director

As the county agency responsible for overseeing the public funding of alcohol, drug addiction and mental health programs and services, ADAMHS is committed to improving lives and utilizing taxpayer dollars efficiently. To achieve that end, we remain mindful that our priority must be accountability to the citizens of Montgomery County.

Providing quality substance abuse prevention, treatment and recovery support services is especially critical as Montgomery County faces an opiate epidemic. As you will learn in this annual report, the publicly funded alcohol and other drug addiction prevention, treatment and recovery system is an investment in the future of our community. Combating the scourge of addiction and eliminating the stigma of mental health illnesses is unfortunately the challenge that unites us.

Every aspect of our community, from families to the criminal justice system, depends upon all of us working together to heal our community. Thank you for your continued support of our efforts to ensure quality treatment that works to help people recover.

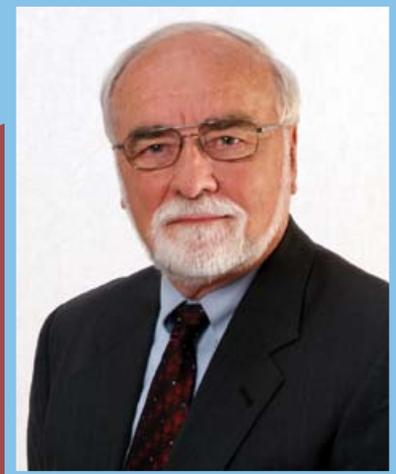

Helen Jones-Kelley, J.D.

Executive Director

Special acknowledgement should be given to County Commissioners Judy Dodge, Deborah Lieberman and Dan Foley along with County Administrator Joe Tuss for their leadership toward building a healthier Montgomery County.
